How do I Keep My Dog Safe and Healthy With the Fires?

With the number and size of the fires increasing around us, many of you have been asking how you can best keep your pup safe and healthy. We are actively monitoring the air quality and weather, if your appointment or classes need to be rescheduled we will reach out as soon as possible. Here are a few tips and things to look out for as our first responders work hard to put them out.

- **Air Quality-** Anything above a 100 AQI is important to keep an eye on. Limit their time outside and avoid strenuous exercise and prolonged walks. And when you come in from outside, give them a quick wipe down to prevent any contaminants from coming into the house.
- **Skin Irritation-** Smoke carries a lot of harsh particles that can trigger canine allergies. If your dog is itching or uncomfortable, consult your vet about an anti-histamine. If you are noticing irritation specifically around their collar area due to the smoke, reach out to us—we have plenty of collar tips and gear adjustments to help.
- **Evacuation Preparedness-** In the event of an emergency evacuation, make sure to have a go-bag ready with both your essentials and your dog's. If you aren't always home, placing an emergency sticker on your front door indicating how many pets you have will help first responders keep them safe if a situation arises while you are away.
